WATER

1/16/13: Correspondence

Docket No. W-01445A-12-0348

To Whom It May Concern:

The upcoming proposal to increase water rates prompts my input.

Understandably water should be expensive in the SouthWest. Water is a premium commodity. A premium commodity should be preserved and used with respect. Not wasted.

What do you say to a homeowner who is entitled to 7,200 gal of water per month- "I am paying for this much water so I can waste it whichever way I wish". ???

I like to suggest that the monthly allotment of water be greatly reduced.

i.e. Starting at 1,000 gal per month for an incentive to save water and \$\$\$s. Increase this base by 1,000 gal. with an equivalent \$\$ value. By the time one uses 7,000 gal the price equals \$87.00 as proposed. At least in this scenario a homeowner is given an opportunity to greatly reduce water usage.

Thank you for your consideration,

Toni Coon

(I respect every drop coming out of my faucet)
